- I Jet Grouting

Abdullah Bin Ahmed Al Nuaimi
Chairman

“One stop construction solutions”, It is not just our tagline. It is at the core of everything we undertake. Al Nuaimi Group LLC (ANG) , we are here to be your most trusted resource to ensure that your construction requirements meet the correct operational and performance requirements. Backed by our long industry experience and remarkable expertise with mission and commitment. We focus on the specific needs of each project and provide high quality, cost-saving solutions to our clients.

To embark on a journey of success one needs the tools of preparedness, foresight and strategy. These lead to the path of growth and high quality operation. It is imperative to combine these three forces in an industry. All the way through the 39 years of experience, we identified some core values and base our management on these simple values of Integrity, Professionalism, Team work and People care.

Dr. Rashed Abdullah Al Nuaimi
C.E.O.

Al Nuaimi Group founded in 1974, and have vast experience in roads, buildings, foundations and piling, ready mix concrete, transportation, high voltage electrical contracting works etc. Al Nuaimi Group - Piling & Foundations (ANF) specialized in bored piling works, shoring works , sheet piling-both onshore and offshore, dewatering, ground improvement, slope stabilization. We provide unparalleled expertise in complex and intricate projects of all sizes. Our field staff and owners make up a cohesive management team that brings many years of piling execution experience to every job.

Al Nuaimi Group - Piling & Foundations is a licensed piling contractor with technical engineering know-how. We are fully staffed to co-ordinate project details with our customers, and their design teams in a partnered approach to maximize project efficiency and profitability. Al Nuaimi Group - Piling & Foundations is committed to construction safety. Our world renowned piling equipment and machineries thoroughly maintained and fine tuned to avoid downtime and schedule delays. We will help make your project a success.

GROUP INTRODUCTION

Al Nuaimi Group LLC is one of the largest Conglomerates in the United Arab Emirates with its influence spreading into the GCC countries through its business activities. Its main areas of business are in Aluminum and Glass, Application Engineering, Construction, Roads and Infrastructure, Foundations and Piling, General Transport and Ready mix Concrete. "One stop construction solutions" is not just our tagline. It's at the core of everything we undertake. At Al Nuaimi Group LLC, we're here to be your most trusted resource to ensure that your construction requirements meet the correct operational and performance requirements. Backed by our long industry experience and remarkable expertise with mission and commitment, we focus the specific needs of each project and provide high quality, cost-saving solutions to our clients.

Al Nuaimi Group is a family concern rooted in the simple values of prompt response and strong customer satisfaction. The quest for quality, work ethics, and complete dedication are our core values. We use our years of experience to delight you with the ease of the construction process. Our team of professionals provides you quality work with complete satisfaction. Among the projects completed by us are the Abjar Tower, Twin Tower, Flex Commercial Tower, RAK Chamber of Commerce building, Emirates Islamic Bank Building, Federal Electricity & Water Authority Offices, RAK Mall, Mantled Athletic Hall at IAT RAK, Police Station Buildings in RAK, the Arabian Automobiles Showroom in RAK, Number of highways and road projects for the Ministry and other government departments, etc.

The success of the Group has largely been due to its ability to forge Long Standing Alliances and joint ventures as well as healthy business practice through integrity and commitment. These relationships have been carefully nurtured so that Al Nuaimi Group now touches the lives of people in the U.A.E. and other GCC Countries in many different ways. The key factor of continued success of Al Nuaimi Group is our effective use and development of the knowledge, skills and attitude of all our employees.

We take great pride in the quality of work we produce. We spare no effort or expense to maintain our exemplary health, safety, environmental and quality records. Our reputation in our area of operation and the very high percentage of returning clients are clear indications of our performance. This is all achieved by our very well trained, dedicated and experienced project teams, by maintaining an impressive top of the line fleet of equipment and by a quality department with the highest standards.

Al Nuaimi Group - Piling & Foundations has long adopted a practical and effective quality system that conforms the ISO 9001, ISO 14001 : 2004 standard. The quality system is composed of policies, procedures

and records that are integrated into everything we do. Though continuous improving, the system has provided us with a robust framework that allows for smooth operation and facilitates consistency in the project quality control and services.

We also offer a verity of other solutions that are infrequently used in the area. With ample resources in addition to our experienced engineers and designers. ANF has the credentials, experiences, latest technology, full range of Equipment and a strong financial support to carry out and execute projects of the largest size in GCC and overseas.

ANF offer absolute cost - effective solutions to your ranging Projects from initial site investigations to overall design and build packages that cover all aspects of foundations engineering and construction.

QUALITY POLICY

GENERAL

As we aim international leading construction, ANG is intent on carrying out activities, which focus on ensuring that the quality of our projects meets the expectations of our clients.

OBJECTIVES

We will ensure that our quality management system is used as a management tool, in connection with tendering, contracting, designing, planning, executing and handing over of the works.

We will ensure that our Quality Management System is continuously developed based on experience in practice with use of the system and that the system, as a minimum, always complies with current legislation and other regulations.

We will ensure that the Integrated Management System, including quality management, is used so that we prevent mistakes and avoid cost demanding failures and damages.

We will ensure that the works are handed over without deficiencies and that notices of defects are answered immediately and remedied as soon as possible.

The works will be carried out with qualified employees, consultants, sub-contractors and suppliers, to the full satisfaction of our interested parties.

RESPONSIBILITY AND ASSIGNMENTS

The Board of Management and Divisional Management shall observe the Quality Policy. In liaison with Health, Safety and Quality, Management shall communicate the group objectives and ensure that they are met.

HEALTH AND SAFETY POLICY

GENERAL

As we aim international leading construction, ANG is intent on carrying out activities, which focus on ensuring that the quality of our projects meets the expectations of our clients.

OBJECTIVES

We will ensure that our quality management system is used as a management tool, in connection with tendering, contracting, designing, planning, executing and handing over of the works.

We will ensure that the Integrated Management System, including quality management, is used so that we prevent mistakes and avoid cost demanding failures and damages.

We will ensure that regular evaluations of notices of defects, non-conformities and client's feedbacks continuously improve the quality activities.

The works will be carried out with qualified employees, consultants, sub-contractors and suppliers, to the full satisfaction of our interested parties.

RESPONSIBILITY AND ASSIGNMENTS

The board of management is responsible for approval of the quality policy, and specifying the group objectives for Quality Management.

The Board of Management and Divisional Management shall observe the Quality Policy. In liaison with Health, Safety and Quality, Management shall communicate the group objectives and ensure that they are met.

All relevant personal shall be familiar with current Quality objectives and the Quality Policy.

ENVIRONMENTAL POLICY

GENERAL

As we aim international leading Construction Company. ANG is intent on carrying out its activities with focus on the impact upon the environment. Compliance with current legislation and other environmental requirements, especially our clients' requirements and expectations, is the basis for our environment related efforts.

OBJECTIVES

We will ensure that our employees are at all times qualified to perform the environmental tasks in a responsible way.

We will continue our endeavors to anticipate how our activities may affect the environment.

We will continue our endeavors to identify environmental factors and/or risks as early as possible, in order to make decisions based on relevant facts and take proper actions.

RESPONSIBILITY AND ASSIGNMENTS

The Board of Management is responsible for the approval of the Environmental Policy and shall ensure that the Environmental policy statement is adhered to throughout the company.

The Board of Management and the divisional management shall observe the Environmental Policy. In liaison with Health, Safety & Quality, Management shall communicate the group objectives and ensure that they are met.
