

# PROCESS WEIGHING AND AUTOMATION

# MECHANICAL ENGINEERING

## MECHANICAL ENGINEERING

- ⚙️ Engineering jobs in 5 to 7 days.
- ⚙️ Long or Short Production Runs, Small or Large Quantities, One-Shot or Repetitive Production.
- ⚙️ 48 hour turn-around on quotes.
- ⚙️ Latest Manufacturing Technology, Modern CNC Plasma and Gas Cutting,
- ⚙️ CAD In-house Engineering & Design Staff.
- ⚙️ All processes under one roof including Shot blasting and Paint.
- ⚙️ Turnkey Manufacturing Available.
- ⚙️ Backed by a committed Highly Experienced work force.
- ⚙️ Highly reputed with excellent references.

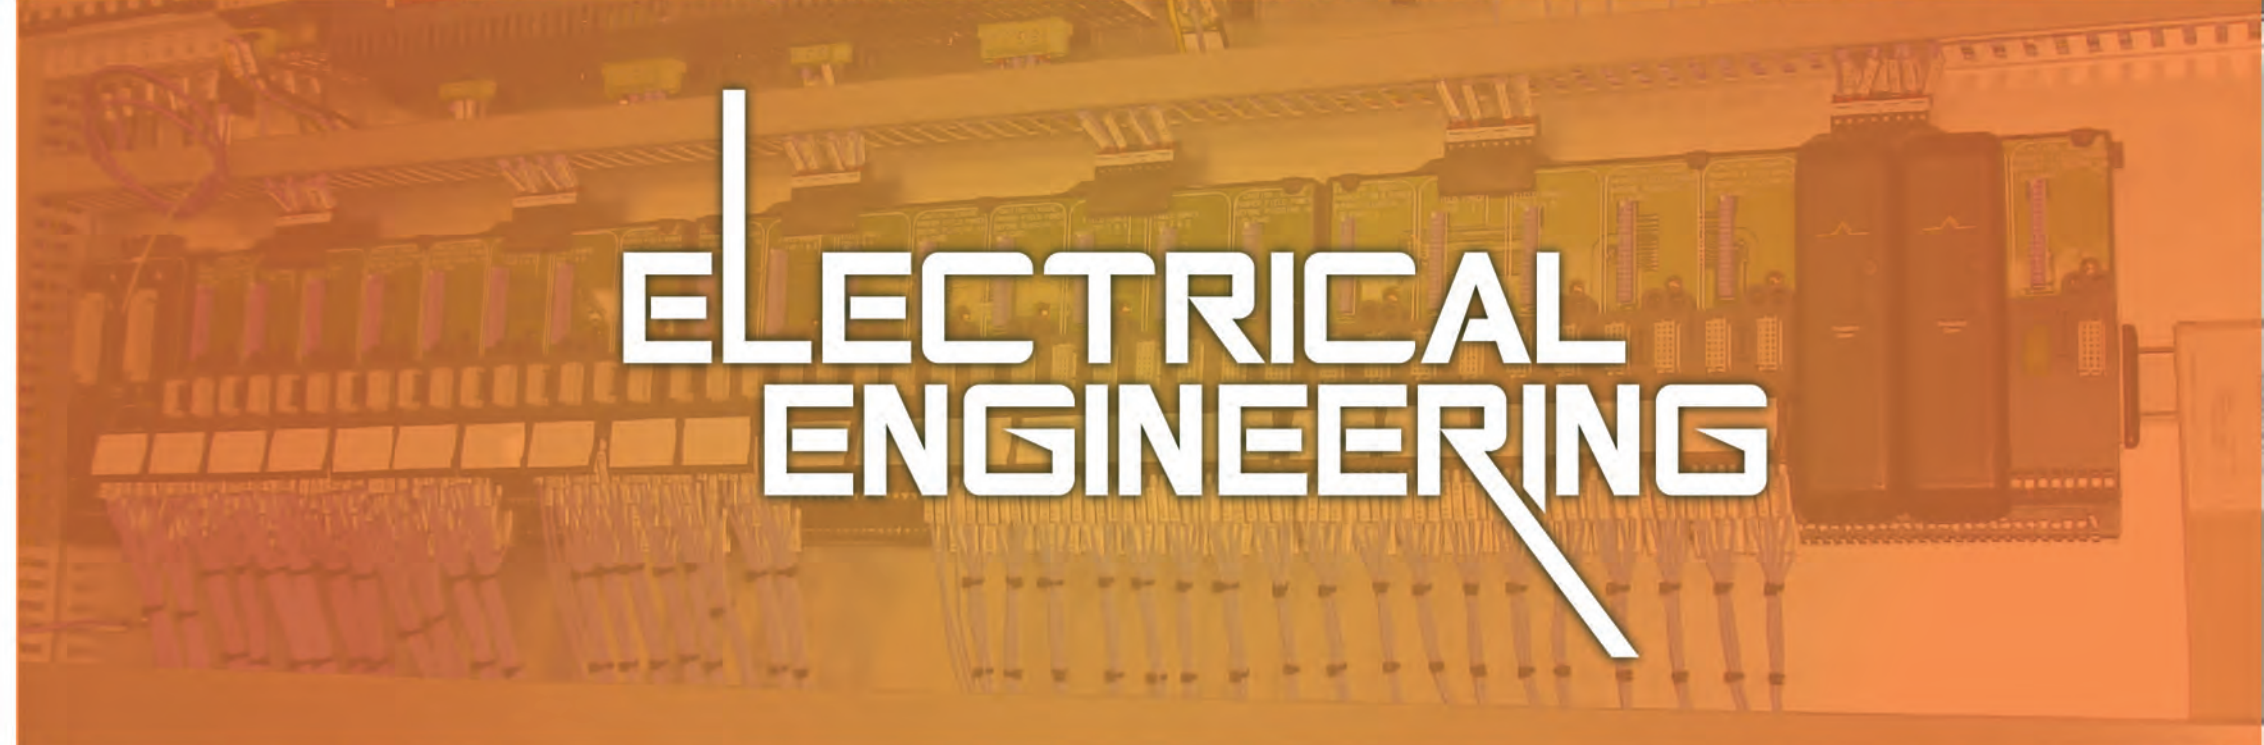

## ELECTRICAL ENGINEERING

You tell us that the requirement for engineered and customized Solutions is ever increasing. Our innovative design and engineering excellence provide flexibility in design, specification and installation that modern power installations demand. There can be no compromise or short cuts when it comes to safety. Our safety record is world class and we are committed to insure Your RAE Electrical Panel requires, which provides complete peace of mind for both your employees and your operations.

# INTELLIGENT AUTOMATION

## INTELLIGENT AUTOMATION

Building better manufacturing environments with process Specific Automation Technologies. In addition to the fundamental processes of feeding, mixing and conveying, our unique experience and allround technical capability makes us the ideal partner to design, manufacture and install all vital processes.

## SOLAR POWER SYSTEMS

The solar panels collect the sun's energy and, with the help of a charge controller and inverter, turns it into electricity. Because all the electricity that's generated is not used immediately, a bank of batteries will store the power until you need it. We can help you design your system and can have everything you need to start producing your own electricity delivered to your location in a flash! Just let us know what you need and we'll walk you through it!

# SOLAR POWER SYSTEMS

# ORGANIC WASTE MANAGEMENT

## ORGANIC WASTE MANAGEMENT

ASM's ecoHERO Digester is the first of its kind anywhere in the world (Patent received in 2010) it makes recycling organic waste easy and profitable.

- ⚙️ Converts organic waste into stable, non-toxic fertilizer pellets in just 3 days.
- ⚙️ Saves up to 80% on landfill costs and up to 85% on carbon emissions.
- ⚙️ Revolutionary Process – No expensive enzymes or chemical additives required to accelerate the process.
- ⚙️ Quiet, sealed, no smells, Safe, hygienic and compact.
