Take The First Choice...

We are the traders of all kinds of construction machineries, and dealers of genuine spare parts of the same. This multiplicity of dealing allows us to ensure high level of customer support and customer satisfaction. We have professionalized documentation wing which is makes tailor made documents required for worldwide export as well as the shipping process. We have competent services in the frame of international project cooperation with global companies that generate a variety of possibilities for us as well as for our customer. Within this short span of time, our machines and services have been identified by the construction industry and that's why we fix our tag line as "Take the first choice".

**RAN**

Quality is one of the top priorities at RAN GmbH and manifested deeply in the company philosophy. In order to ensure the conformance of all RAN machines to the latest quality standards, highly experienced quality engineers check all RAN machines on a regular basis. By doing so, obsolete parts are being replaced. General checks are performed and the newest technologies are implemented. The most recent quality standards assure a more efficient business process and emphasize the competitiveness of your company in the long term.

As an experienced, globally acting company we are pleased to offer broad services concerning project cooperation besides our equipment trading to customers. In the frame of this cooperation, we ensure that our customers get in contact with individually suitable partners in GCC in order to realize big and international projects.

**RAN**

As a highly customer-focused company RAN GmbH is always aiming at satisfying our customers through offering superior services. In order to provide most comfortable, but at the same time the safest solutions for our customers, we are happy to offer the following after sales services as an additional option: RAN is offering a wide range of services with regards to the purchase and sale of machines. International payment methods like irrevocable confirmed letter of credits are making our deals easier.

- Truck Mounted Concrete Pump / Stationary Pump
- Transit Concrete Mixer
- Concrete Batching Plant (Stationary / Mobile)
- Concrete Recycling Plants & Ice Plants
- Tractor Units
- Cement Bulker
- Construction Machines

RAN

RAN GmbH is an innovative and modern start-up company. We offer a broad range of high-quality products and individually designed services for our international customers. Our top priority is the continuing satisfaction of our customers and the operational reliability of our products and services

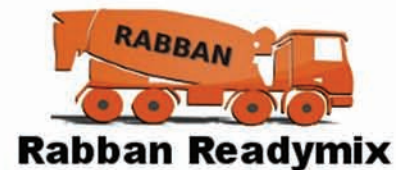

Apart from buying machines, we also offer the possibility for our customers to lease our construction machines without having to take big capital efforts. The leased machines are being serviced by the RAN GmbH, their technical features are being updated frequently and our customers can simply give the machines back after the successful completion of their construction projects.
